CDL

Computer Deconstruction Lab
## The Jersey Shore Makerspace

Dan Jacobs
Martin Flynn
Neil Cherry

CDL, formerly known as IXR, is a 501.3c non-profit Makerspace, Hackerspace and Podcasting Studio here at the InfoAge Science and History Learning Center. We are an open collective of geeks, artists, and techie-creative-types who come together to share tools, resources, knowledge, and ideas.

We embrace the sharing of ideas and innovation, and that includes open source hardware and software. We also host workshops and run classes on a bunch of topics. CDL and is open to the public, walk-ins are welcome. Visits are free but a donation of $30 is suggested if you stay and participate. We do have yearly membership as well.

Our workspace is equipped with:

- a video podcasting studio

- 3D printers, we currently have 6.

- a desktop 3D CNC machine

- a floor drill press

- various power tools

- the usual hand tools

- Soldering stations

https://compdecon.github.io/

- various microcontrollers (Raspberry Pis and Arduinos)

- various electronic components (LEDs, resistors, capacitors, etc.)

- telescopes including a Mead LX200GPS

Membership is $30 on a monthly basis or $300 a year.

We are open every Monday night from 7PM until 10PM.
